

**Sale Name:** Wayne County Airport Authority Surplus

**LOT 171 - Tripp-Lite Power Inverter PV1200**

**Description**

**Tripp-Lite Power Inverter PV1200**

120 AC Volts Output. This unit is a DC to AC, 12v to 110v personal transformer. 2 outlets.

Utilize you vehicle's battery to efficiently power work site power tools, pumps, as well as your laptop computer. Continuously supplies 1200 watts of 120VAC power to (2) AC outlets from any 12VDC battery source. Frequency control locks AC output at 60Hz for operating stability of motor loads and other inductive loads with high current startup requirements.

Great for using on a boat or rv for charging personal equipment, watching tv, or even running a microwave.

Unable to test.

**Quantity:** 1
